

VMware vCenter Operations Manager: Advanced Usage and Dashboard Design [V5.x]

Beta Class Announcement

Announcing the beta delivery of the new VMware vCenter Operations Manager: Advanced Usage and Dashboard Design [V5.x] for partner/customer participants

VMware invites technical personnel to participate in the first delivery of its **VMware vCenter Operations Manager: Advanced Usage and Dashboard Design [V5.x]** course. A limited number of seats are available in this early, discounted delivery. Read on to learn more about the course and how to register.

WHAT IS IT?

A three-day-long instructor-led technical training course designed for System administrators and consultants responsible for customizing vCenter Operations Manager to expand from the vSphere User Interface to a customized environment

This training course focuses on the advanced capabilities of VMware® vCenter™ Operations Manager™ 5.6, such as adapters, customization and management topics. You will learn how to use adapters, define custom super metrics, customize dashboards, and use the Custom user interface.

The language of instruction will be English.

WHEN IS IT?

May 8th – 10th 2013. Attendees must plan to be present for the entirety of each of the three days.

WHO SHOULD ATTEND?

Participants are expected to have prior

- VCP-level knowledge of vSphere
- Ability to install and configure basic settings in vCenter Operations Manager.
- Able to log in and use the vSphere user interface of vCenter Operations Manager.
- Identify the difference between badges and metrics.

WHERE IS IT?

The class takes place in Frimley, United Kingdom. The precise location will be sent to enrollees at the time of enrollment.

WHAT IS THE FEE?

The cost of participation is **GBP£860.00 or 12 PSO Credits, a premium discount (approximately 50%)** off the price of the course when it launches. This discount applies to all categories of participants, including VMware customers and partners. No further discounts will be applied.

WHO SHOULD NOT ATTEND?

Personnel who do not have hands-on experience administering vCenter Operations systems will not derive value from the course.

WHAT IF I CAN'T TAKE PART IN THIS CLASS?

The **VMware vCenter Operations Manager: Advanced Usage and Dashboard Design [V5.x]** course will become generally available later in 2013, at its regular list price (to be determined).

HOW DO I PAY?

Credit cards, PSO Credits, and Purchase Orders are accepted for payment. Payment is required to hold a seat.

WHERE CAN I GET MORE INFORMATION?

A datasheet for the course is attached to this message.
